SEMANTIC COORDINATION INFRASTRUCTURE

TOSID entity classification
KMAC fact representation
Universal semantic protocols
Cross-organizational coordination
Multi-scale reasoning
Distributed governance
Crisis response coordination

Interoperable expertise
Cross-domain knowledge transfer
Standardized competence

Coordinated intelligence
Multi-agent collaboration
Semantic understanding

Interoperable expertise

Cross-domain knowledge transfer

Standardized competence

AXI
ARTIFICIAL EXPERT INTELLIGENCE

Compiled domain expertise
Expert-level knowledge
Deterministic reasoning
Verifiable audit trails
Medical diagnosis systems
Legal analysis engines
Engineering tools

Verified Creative Reasoning
Expert-guided exploration
Domain-informed intuition

AAI
ARTIFICIAL AUGMENTED INTELLIGENCE

Hybrid reasoning architecture
Creative problem-solving
Natural language understanding
Contextual interpretation
Human-AI collaboration
Cross-domain synthesis
Novel hypothesis formation
